Attaching Audioshoes and Receivers to Phonak Hearing Aids

Scan code for video instructions

To Attach the Audioshoe: Do this every morning.

Step 1: Match the 3 prongs on the receiver to the 3 prongs on the audioshoe. Push until you hear a click

Step 2: Note the track mechanism on the bottom of the hearing aid and audioshoe

Step 3: Slide the audioshoe onto the hearing aid by aligning the track mechanism

Step 4: When it is connected, you'll hear a click

To Detach the Audioshoe: Do this before the student goes home.

Step 1: Push down on the button with your fingernail

Step 2: While pushing the button, slide the audioshoe off of the hearing aid

Step 3: Store in a safe place until the student puts it back on!
